Professional Summary

With over 2.5 years of experience in software testing, I specialize in web applications, APIs, and hands-on mobile automation. I am proficient in automation tools such as WebdriverIO, Playwright, Cypress, Selenium, and Appium, with strong coding skills in Java and JavaScript. Additionally, I have experience using Git for version control.

I have developed Unified Test Automation Frameworks (UTAF) using JavaScript, integrating UI, API, and mobile automation. My expertise encompasses usability, smoke, functional, and regression testing. I am well-versed in Agile processes, including sprint planning, daily stand-ups, and retrospectives.

I am skilled in designing and implementing automation scripts with Selenium, conducting thorough manual testing, and collaborating with cross-functional teams to maintain high-quality standards. I adeptly document test plans, results, and defects to provide valuable insights to stakeholders. My technical expertise includes Selenium with Java, TestNG, Maven, Allure reports, and Bitbucket, and I have successfully executed multiple Proof of Concepts (POCs) using Playwright and WebdriverIO.

Skills

- **Languages:** Java, JavaScript
- **Automation Tools:** Selenium, WebdriverIO, Playwright, Cypress
- **Testing Stack:** UI Automation, API Automation, Mobile Automation, Manual Testing
- **Version Control:** Git, Bitbucket
- **CI/CD:** Jenkins
- **Methodologies:** Agile (Scrum)

Professional Experience

Associate Software Engineer Feuji Software Solutions Pvt. Ltd., Hyderabad	September 2022 – September 2024
---	---------------------------------

Software Engineer AidenAi, Hyderabad	September 2024 – Present
--	--------------------------

Projects

Cooperators

September 2024 – Present, Hyderabad

- Developed automation test scripts using Playwright to ensure the functionality of the Property and Automobile Insurance Application.
- Conducted comprehensive manual testing to validate edge cases and ensure coverage across multiple scenarios.
- Participated in Agile development cycles, collaborating with teams to meet quality standards.
- Documented test plans, results, and defects, providing valuable insights to stakeholders.

- Employed Playwright with Java, TestNG, Maven, Extent reports, and Git for version control.
- Used Git Actions For CICD.
- Executing Smoke and Regression suites by Weekly and for deployments
- Contributed significantly to knowledge sharing of the product, testing processes, and timely delivery of stories, including demos to the entire scrum team.

Cotiviti

August 2023 – August 2024, Hyderabad

- Developed automation test scripts using Selenium to ensure the functionality of the Star Intelligence platform.
- Conducted comprehensive manual testing to validate edge cases and ensure coverage across multiple scenarios.
- Participated in Agile development cycles, collaborating with teams to meet quality standards.
- Documented test plans, results, and defects, providing valuable insights to stakeholders.
- Employed Selenium with Java, TestNG, Maven, Allure reports, and Bitbucket for version control.
- Contributed significantly to knowledge sharing of the product, testing processes, and timely delivery of stories, including demos to the entire scrum team.

Encore

April 2023 – July 2023, Hyderabad

- Created test cases, implemented and maintained test scripts, and utilized Git for version control.
- Engaged in Agile practices, including sprint planning and daily stand-ups.
- Diagnosed and resolved automation script failures, generating detailed defect reports for effective troubleshooting.

Education

Master of Computer Applications (Correspondence)	Ongoing
Andhra University, Visakhapatnam, Andhra Pradesh	

Bachelor of Science in Computer Science	May 2022
Maharaja College, Vizianagaram, Andhra Pradesh	

Certifications

-
- Generative AI: Foundation Models and Platforms
 - Search Engines for Web and Enterprise Data
